INDEX

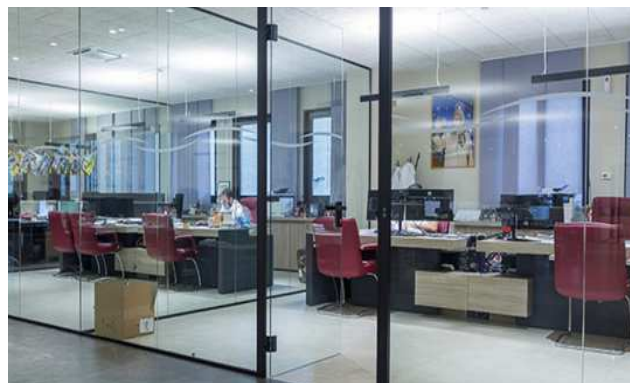

A History of Success

The history of Fresh Tropical Ltd. by Jawad, begins in 2007. In previous years, it was present on the market as an ethnic food store, family-run and staffed with ten qualified people. Having actively started importing products with a solid organization, the small store soon acquired a warehouse for stocking goods in Seveso. From here, the company's expansion began with first one and then three stands at the Milan fruit and vegetable market, acquiring more locations over the years, becoming an increasingly important reference for distribution in Milan and the surrounding area for ethnic products, progressively increasing the quality of services and the numbers and types of catalog offerings.

What Sets Us Apart

We have outfitted our warehouses with state-of-the-art equipment to ensure optimal storage conditions, including refrigerated units with temperature controls that meet CEE standards, as well as advanced machinery for efficient internal logistics. Our commitment to quality extends to our order fulfillment process, where our dedicated teams ensure real-time order registration and same-day fulfillment. At Fresh Tropical, quality in both service and product is at the core of everything we do.

Commercial and Logistics Area

As of today, the company employs 450 people and operates six locations across Italy: Rome, Bologna, Brescia, Naples, Milan, Messero and Corbetta the latter serving as the main hub with a total storage area of 52,000 square meters. The company also maintains a fleet of 185 vehicles. Through partnerships with a support warehouse in the Netherlands and several major European transport companies, Fresh Tropical has established itself as the largest importer of ethnic food products in Italy and a key player in the international market. We are dedicated to delivering every order within 24 hours. Thanks to our efficient and well-organized logistics system, we guarantee the quality and freshness of all our catalog products.

Vision

Our vision is to be the leading global distributor of ethnic foods, setting the standard for quality, innovation, and customer satisfaction. We aspire to expand our reach and influence, making cultural diversity accessible through the flavors we offer, and becoming the preferred partner for ethnic food distribution worldwide.

ABOUT OUR COMPANY

Mission

Our mission is to bring authentic, high-quality ethnic food products to markets across Italy and beyond, enriching lives with diverse culinary experiences. We are committed to excellence in every aspect of our business, from sourcing and logistics to customer service, ensuring that our customers receive the best products with unmatched freshness and reliability.

Our Team

Our team of 450 dedicated professionals across six locations in Italy is the backbone of Fresh Tropical's success. Their expertise and passion drive our operations, ensuring we source the finest ethnic products and deliver exceptional service. Together, we continuously innovate and improve, maintaining our leadership in the industry.

The background of the page is a photograph of a rice paddy field. A person wearing a pink long-sleeved shirt, dark pants, and a traditional conical hat is bent over, working in the water. The field is filled with young rice plants. In the bottom right corner, there is a pile of harvested white rice grains.

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and extend across the width of the page. In the top right corner, there is a delicate, light-colored illustration of a branch with several small leaves and berries, adding a decorative touch to the otherwise plain paper.
